

Cycle IV Accountability Report

Lincoln Hanscom Primary

Performance and improvement ratings for Massachusetts public schools and districts are issued every two years. Ratings are based on aggregate student performance on Massachusetts Comprehensive Assessment System (MCAS) tests. Performance is measured using a Composite Performance Index (CPI), a measure of the distribution of student performance relative to attaining proficiency.

Ratings are used to track schools' progress toward meeting the goal of all students achieving proficiency in English language arts and mathematics. We are working to achieve this goal by 2013-2014. For more information visit <http://www.doe.mass.edu/sda/>.
