

Lincoln Public Schools
Ballfield Road
Lincoln, Massachusetts

School Building Advisory Committee Meeting

Public Forum

Tuesday, September 16, 2014

7:00 p.m. – 9:00 p.m.

Reed Gym

Agenda

During this first of four public forums, members of the SBAC will provide an update on the work it conducted over the summer. The purpose of the SBAC is to work with Dore & Whittier Architects and the public to develop a series of possible renovation solutions for the Lincoln School. This process considers the educational and facility needs of the school as well as the role the school building plays in the wider community. Dore & Whittier Architects will engage participants in a discussion about the needs of the Lincoln School and the intricacies of renovating a large public facility. Preliminary approaches to cost estimating will be presented.
