A message from Mary Emmons, Administrator for Student Services

We are pleased to announce we will be starting a therapy dog pilot program in January at the Lincoln Campus! Thanks to Jennifer Wolf, our Student Services Coordinator on the Lincoln Campus, her friend, Cricket Potter, and her whippet, Teddy, will be coming to campus two hours per week to work with identified students. Cricket and Teddy are certified and trained through Therapy Dogs International. Cricket, the handler, will remain with the Teddy at all times and has met the guidelines put forth by the district regarding responsibility of care, training, health, behavior, and interactions with students.

Research has shown that therapy dogs support psychological growth and increase social skills and self-esteem in children and adolescents. Therapy dogs have been trained to provide support in schools. Therapy dogs have a positive impact on reading progress, emotional functioning, and communication skills.

Cricket and Teddy would start by meeting with a small group of identified children or an individual child for approximately 30 minutes for each group or individual. The therapy would focus on social-emotional needs and/or reading needs. In order for a student to access this program, teachers/specialists would complete a referral form for a student who may benefit from this type of therapy. Consent forms would be sent home to parents/guardians to obtain permission to participate in the program. The school nurse would review the health records to ensure compliance related to medical needs and to identify any dog allergies. It is also important to recognize some students may be fearful of dogs and this information will be important to consider as we plan. Cricket and Teddy would enter and exit the building at the door closest to the room where they would be working and would limit movement through hallways and at passing times. Staff members who have allergies or may be fearful of animals should make Jennifer Wolf aware so we can plan for your needs as well when Teddy is in the building.

This is a wonderful opportunity for our school community! After a pilot period on the Lincoln Campus, our hope is to expand the hours of this program to include the Hanscom Campus. If you have any questions, please feel free to contact Jennifer Wolf or me.

All my best,
Mary Emmons
Calendar of Upcoming Events

Thursday, December 15  . . . School Committee Meeting
7:00 p.m. – Hartwell Multipurpose Room

Thursday, December 22  . . . Superintendent’s Office Hours
3:30 – 5:30 p.m.

School Reopens on Tuesday, January 3, 2017

News and Information

To share information with your colleagues, please email Janice Gross at jgross@lincnet.org

We extend condolences to our colleagues:

Samantha Iannella, second grade teacher at Hanscom Primary School, on the recent passing of her grandmother Elizabeth Winchell Copplestone.

Diane Mackenzie, intensive skills teacher for preschool on both the Lincoln and Hanscom campuses, on the loss of her father-in-law James McCorkindale Mackenzie.

GREAT LEARNING
Kristen St. George, Interim Principal, Hanscom Primary School

Jonathan and Nicholas were working in our Service to Our School (SOS) Program—a program where students from each grade level work with the HPS principal to care for our school.

After cleaning library tables and emptying recycling bins, a book about submarines caught Nicholas’ eye! With Jonathan’s support, Nicholas read the book aloud—a great moment of authentic collaboration and learning.

Congratulations to Cathleen Higgins, Food Services Coordinator, and Maki Koetting, Food Services Cook on the Hanscom Campus, on achieving Level 1 Certification from the School Nutrition Association of Massachusetts.

Teaching with Tolerance

Perspectives for a Diverse America
http://perspectives.tolerance.org/

Teach for Justice, Plan with Perspectives

December is Human Rights Month

Universal Declaration of Human Rights

Celebrate Universal Human Rights Month by reading the Universal Declaration of Human Rights at http://perspectives.tolerance.org/. Adopted by the U.N. General Assembly in 1948, the declaration seeks to outline protections against human rights atrocities for all people, all around the world. Look at the declaration’s list of inalienable rights and fundamental freedoms. Would you and your students add anything today?

Check out the following:

• Readings for Pearl Harbor Day
  Lessons about the Pearl Harbor attack should also acknowledge the resulting inhumane treatment of Japanese Americans by the U.S. government. For K-12, try pairing Manzanar, 1942—a series of photographs—and A Place Where Sunflowers Grow—a children’s story—to show students the perspectives of interned Japanese Americans during World War II.

• The Breadwinner
  In this story by Deborah Ellis for grades 3-5, Parvana lives with her family in Afghanistan. Under Taliban rule, women and girls like Parvana are forbidden to leave their homes or go to school. Though her rights and freedoms are restricted, Parvana regularly goes to the marketplace with her father, who needs her help walking and who believes in education for everyone.

• Father, Daughter and the Holocaust
  In this short and poignant StoryCorps recording, appropriate for grades 6-8, Debbie Fisher describes learning about her father’s true experience as a Holocaust survivor after she grew up hearing a gentler version. She realizes as an adult that her father endured the same horrific treatment in Auschwitz that Elie Wiesel wrote of in his autobiographical account, Night.

• On Liberty and Slavery
  Written by George Moses Horton, who was born into slavery, this 1829 poem pleads with liberty, personified, to break slavery’s chains. Leveled for students in grades 9-12, this poem holds steadfast to the promise of justice and dignity for all people and offers a powerful final message: “The storm shall calm,/With songs of Liberty!”

Harvard Graduate School of Education

What is a Good Citizen and How Do You Create One?

Thursday, December 8, 2016
5:00 – 6:30 p.m.
“Note the 5:00 p.m. start time.”
Professional Development, What is a Good Citizen and How Do You Create One?, Continued

Speakers:
- Callie Crossley, radio and TV host, WGBH; media commentator
- Michelle Fine, distinguished professor, The Graduate Center, City University of New York (CUNY)
- Kei Kawashima-Ginsberg, director, Center for Information and Research on Civic Learning and Engagement (CIRCLE), Jonathan M. Tisch College of Civic Life, Tufts University

Moderator: Meira Levinson, Professor of Education, HGSE

The election highlighted deep divisions in American society. As we think about civic education, we must take stock of these challenges: especially around diversity, divided parties, digital democracy, and the pressures for more global perspectives. The panel members will bring expertise from research, practice, communication and policy to the discussion.

This forum is in conjunction with the Association for Moral Education (AME) 42nd Annual Conference.

Launching Innovation in Schools
Starts on January 17, 2017

Become a change leader and take the first step in launching instructional improvement initiatives in schools to improve teaching and learning.

Every great teacher and every great school constantly work towards creating better learning conditions for students. Just as we hope our students become lifelong learners, we as educators should be constantly learning and improving. This education course is for school leaders of all kinds (from teacher-leaders to principals to superintendents) who are launching innovation in schools—starting new efforts to work together to improve teaching and learning.

Over six weeks, you and your classmates will complete a cycle of study, experimentation, and reflection to gain confidence and skills to lead instructional improvement efforts. Through experiential activities and assignments, you will begin working with colleagues to envision the next level of work for your team or organization, to launch a new initiative, and to measure your progress along the way. Based on the work of Justin Reich (Teaching Systems Lab, MIT) and Peter Senge (MIT Sloan), this course will focus on visioning and capacity building, with an emphasis on collaboration and building partnerships with stakeholders at multiple levels.

At the end of the course, you will have started the process of launching an instructional improvement initiative in your school or learning environment, and you will better understand yourself as a leader and change agent. You will have made connections with peers who are also undertaking this important work.

This course has been funded by Microsoft and is part of the Microsoft K-12 Education Leadership Initiative (https://www.edx.org/microsoft-k-12-education-leadership) developed to provide resources to K-12 school leaders around the world as they address the unique needs of their schools in a changing educational and technology landscape.
Professional Development, Launching Innovation in Schools, Continued

What you’ll learn
Educational leaders—from teacher-leaders to principals to superintendents—will learn about:

- Bringing people together around ideas they care about
- Refining a vision and creating coherence
- Getting started with a new instructional improvement initiative
- Working together through challenges and successes
- Measuring progress and adjusting along the way
- How the thoughtful use of technology can support learning
