## SUPERINTENDENT'S BULLETIN

*The Superintendent's Bulletin is typically posted on the Lincoln Public School website each Wednesday during the school year. It provides timely, relevant information about meetings, professional development opportunities, curriculum and program development, grant awards, and School Committee news.*

Dear Faculty and Staff,

It is terrific to see and hear about all of the culminating activities taking place in our schools and classrooms this week. With one week of school to go, it is easy to get caught up in the hectic pace of trying to get everything accomplished before we close this school year and head into the summer. I hope that you are taking a step back and reflecting upon how much you and your students have accomplished this school year and how much growth has been made.

This morning, I attended the Hanscom Primary School Reading Forces Pinning Ceremony. Students were promoted to a military rank according to the amount of time over the school year they spent reading outside of school. Base Commander Colonel Hund and Chief Hickey presented each student with a certificate of achievement, and each child's parent affixed a pin representing the rank achieved to the student's shirt. You could see every child beaming with pride at what they have accomplished. It was a fantastic way to reinforce the importance of continual reading.

Bravo to the HPS Grade 2 Team for developing such an effective means of motivation and acknowledgement for their students. And, the ceremony provided a wonderful way to include parents in the celebration of their child's learning. Well done.

I wish that I could attend all of the celebrations of learning taking place in our schools. There are so many wonderful exhibitions of the fantastic learning our students have engaged in throughout the year. Thank you to all of our faculty and staff who support our students every day. Enjoy the last week of the 2016 – 2017 school year, it only happens once.

All the best,

*Becky*

## News and Information

### Great Learning

Erich Ledebuhr, Principal, Hanscom Middle School

During the months of April and May, seventh grade students had the opportunity to research, design, create and program their own robots. The students displayed their projects on Friday, June 2nd at the first annual HMS Maker Share Faire.

During the faire, students, parents and teachers all had the opportunity to see the student's robots in action. There was a wide range of products including cars, caution signs, vending machines and pets. Students also received feedback about their projects from robot designers from iRobot.

2017 brings EdTech Teacher's <http://edtechteacher.org> 5th Annual Teaching with Technology Summer Workshops, and we have built an incredible program on a diverse set of NEW topics to compliment many of our favorites from previous summers.

Each summer, we bring together some of the best educators in the country to lead our workshops. All of our instructors have classroom experience and value high-quality professional development.

### About EdTech Teacher

We understand teachers because we have all been teachers now we travel the country and the world to deliver hands-on edtech experiences to support teachers to meet the needs of their students' learning environments. Over the past few years, we may have diversified our offerings and expanded our team, but our mission remains the same: to support educators in their quest to enrich student learning experiences through emerging technologies.

# IDEAS

## Initiatives for Developing Equity and Achievement for Students

**Sponsored by EDCO Collaborative**

A program committed to achievement and success for all students via culturally proficient classrooms and schools that honor the individuality of students and families of all racial, ethnic, and cultural backgrounds.

Background

**Initiatives for Developing Equity and Achievement for Students (IDEAS)** builds upon EDCO's mission in supporting member and non-member districts as they focus on culturally proficient schools and classrooms. IDEAS will extend the professional learning opportunities available to school districts as they work to enhance the culturally proficient practices identified in Standards II and III of the MA DESE Model Teacher Rubric.

Programs and Services

- Professional learning opportunities in cultural proficiency to support equity and success for all students
- Student Leadership Conferences for middle and high school students to help shape diversity initiatives
- Consultation on curriculum and developing culturally proficient classrooms and schools
- Customized professional development workshops
- Affinity Group meetings for educators of color
- Affinity Group meetings for white allies
- Book Group: discussions on topics of equity, race and teaching practices
- Tenacity Challenge: Academic Scholarship Competition for Latino and African-American students
- District wide racial climate survey
