CODE OF CONDUCT

School communities where each student and adult feels welcome, seen, heard, and valued are built upon respect, cooperation, curiosity, and a joy of learning in an environment that honors the identities of every individual.

To that goal, we expect each member of our district and school community – students, families, and employees – to conduct themselves in a manner that is aligned with the District Core Values.

It is the expectation of the Lincoln Public Schools that our schools and classrooms provide learning environments that support and nurture student growth and development. Appropriate behavior, self-discipline, and taking responsibility for one's actions is a prerequisite for all students to be able to engage in meaningful learning.

School is a place where children and adults spend many hours learning, working and playing together. Schools need expectations of behavior that ensure that everyone can be free from distraction, fear, or discomfort, so that learning can be successful. All members of the Lincoln School community have the following rights in our school:

- ❖ To be physically safe
- ❖ To work together in a common space that is pleasant, safe and orderly
- ❖ To be free from insults, bullying, harassment or abusive treatment
- ❖ To be protected by local, state, and federal laws

The Code of Conduct for the Lincoln Public Schools complies with chapter 71, section 37H of the Massachusetts General Laws, and federal regulations. Self-discipline and the ability of a learner to control their behavior is the desired outcome for our school's Code of Conduct. Collaboration and cooperation between families and school personnel is an important step to achieving this outcome. Please take the time to review our expectations for student behavior as a family.

We believe that all behaviors are communication and mistakes are a part of learning. The word discipline means "to teach." Understanding that children are at many developmental levels we believe that responses to behaviors must be tailored to the developmental level and specific needs of the child. School personnel work to understand the context and root causes of a student's behaviors and consider the appropriate actions and consequences that will help a child to learn and grow. Sometimes disciplinary action is necessary or required by Massachusetts law or regulations, but suspension and expulsion are always used as a last resort.

While it is the school's expectation that students follow the code of conduct, school personnel will take disciplinary action when behavior is disruptive to the learning process, destructive to property, abusive of others, or causes risk of injury. When positive behavioral supports and educational supports are not successful it may become necessary to take disciplinary measures.

The following rules are not intended to be all-inclusive and disciplinary consequences may result from other conduct, which is inconsistent with maintaining a respectful learning environment or is disruptive to the safe operation of the school. These rules apply in each of our schools and the general enforcement of the rules is the responsibility of all school personnel. Serious infractions are

Student behavior expectations will be included in the district Student and Parent Handbook and principals will communicate the expectations to students and parents/guardians through school based means of communication such as newsletters, direct messaging, and presentations to students.

Principals and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.
