

## Lincoln Public Schools Summer Work Projects 2010

Each year, the Lincoln Public School district supports curriculum development and professional development for teachers by funding projects, training, and courses for teachers during the summer. This summer, we will continue to support key initiatives that were part of the 2009-10 district goals so that continued implementation of those initiatives will be well supported in 2010-11.

#	Time	Event	Purpose	Participants
