

School Building Committee Outreach Committee

Hartwell Multipurpose Room

July 11, 2019

Present: Kim Bodnar, Jennifer Glass and Gina Halsted

Also in attendance: Andy Payne

The meeting commenced at 10:10 am

Minutes: Minutes of the 6/20/19 meeting were approved

Discussion of upcoming blogs: The Committee discussed the content for the next several blog posts and agreed to the following:

July 14: A summary of the previous evening's SBC meeting featuring pictures of exterior elevations and material choices. There will also be a summary of the HVAC discussion and a picture or two of the HVAC plans. The post will include a link to the entire slide deck.

July 21: Pictures of the fence and site preparation on center field. Jennifer Glass asked committee members to take photos of the site work if they are on campus, and to send them to her. Andy Payne reminded the committee that an ongoing photo chronical would be an excellent community service project for a high school student. Mr. Payne volunteered to supervise the student.

July 28 & August 4th: Continued photos of the site preparation. One of the posts could include information about the emergency shelter and generator. The article could remind residents that the town's one school building serves many community purposes. Besides providing educational and meeting space, the building is the town's designated shelter. The committee agreed that a post could be skipped if there was no news to share.

August 11: Agenda of the August 14th SBC meeting.

The next Outreach meetings are scheduled on August 15 & 29th.

The meeting adjourned at 11:55 am.

Minutes respectfully submitted by Gina Halsted
