

OCTOBER 2019 NEWSLETTER

OCTOBER is here! It is sure to be an exciting Month, as we begin our fall unit! It will be fun for the children as we explore, make predictions, compare and contrast within the themes of: Fall, apples, and pumpkins. While our focus continues to be on strengthening social emotional skills by learning routines and developing independence; other language, math and science activities will be embedded in the lessons (Ex: measuring, weighing and comparing apples and pumpkins, observing the changes of the fall season, collecting leaves, and pumpkin pounding).

LEARNING TARGETS...

I CAN complete tasks with increasing independence

I CAN help come up w/ problem solving solutions (math and science activities)

I CAN observe changes

I CAN share materials and work cooperatively

THANK YOU

The teachers would like to thank all our families for the classroom donations this past month. Your contributions of supplies are appreciated!

Please switch your child's extra clothes in his//her cubby for Fall weather and be sure to label all clothing with your child's name.
