

## **Lincoln School PPA Subcommittee**

The School Committee will form a subcommittee to advise the committee on the appropriate scope and parameters of the PV array for the new school building, to manage the process of selecting the PPA that will build the array, and to provide ongoing high-level oversight to ensure that the PPA and the PV array support the educational program, the sustainability goals, and the needs of the campus. The School Committee expects that this subcommittee will proceed in close cooperation with the School Building Committee, and that it will provide regular reports of its activities at the meetings of the SBC.

The membership of the PPA Subcommittee will comprise:

Alex Chatfield  
Tim Christenfeld  
Buck Creel  
Michael Haines  
Jim Hutchinson  
Ed Kern  
Peter Watkinson

In addition, Beth Greenblatt of Beacon Integrated Solutions will provide consulting support to the subcommittee. Her fee for the supporting work will be negotiated by the School Committee and will be paid by a META 7 grant from DOER, administered by Mary Day.

The proceedings of the Subcommittee will be subject to Open Meeting Law.
